KARTIKEY SINGH

Computer Science & Engineering Student

Enrollment: 202503103510392 • **Email:** 25amtics392@gmail.com • **Location:** Surat, Gujarat, India •

GitHub: github.com/kartikeysingh-SK

Academic Portfolio Template: Prepared for IT4048 (Version Control with Git and GitHub) academic submission. All information corresponds to verified student details, coursework, and local project implementations.

EDUCATION

Asha M. Tarsadia Institute of Computer Science and Technology (AMTICS) **Surat, Gujarat**

Bachelor of Technology in Computer Science and Engineering *Pursuing*

- Coursework: Version Control with Git & GitHub (IT4048), Web Development Fundamentals, Database Management Systems, Data Structures & Algorithms.

TECHNICAL COMPETENCIES

Web Technologies:	HTML5 (Semantic), CSS3 (Flexbox/Grid/Design Tokens), JavaScript (ES6+), Responsive Design
Backend & DB:	PHP, MySQL, Node.js & Express.js (Basics), RESTful API Integration
Tools & VCS:	Git, GitHub, GitHub Pages, Vercel Static Hosting, VS Code
Methodologies:	Prototyping Model, Requirement Analysis, Component Modularization, Semantic Commit Logging

TECHNICAL & ACADEMIC PROJECTS

Real-Time Resource Allocation Engine (RTRAE) **PHP, MySQL, JavaScript, Vercel**

Full-Stack Resource Scheduling Application *Repository: github.com/kartikeysingh-SK/resource-allocation*

- Architected an automated scheduling system with conflict detection and dynamic resource reservation logic.
- Implemented administrative audit tracking, role-based dashboards, and responsive analytics.
- Configured cloud database connectivity and deployment routines for continuous availability.

Smart Grocery Shopkeeper Management System **Node.js, Express, JavaScript, CSS3**

Local Retail Udhar / Credit Management System *Surat Retail Use Case*

- Digitized manual credit bookkeeping into an automated ledger tracking customer transactions and net balances.
- Built an instant digital udhar statement generator for customer invoice sharing and print reports.
- Designed using the Prototyping software engineering model with active client requirements analysis.

Personal Portfolio Website (IT4048 Mini-Project) **HTML5, CSS3, JavaScript, Git & GitHub Pages**

Academic Portfolio & CI/CD Showcase *Repository: github.com/kartikeysingh-SK/KartikeySingh_PortfolioWebsite*

- Engineered a responsive personal portfolio featuring custom CSS tokens, accessible light/dark theming, and zero bloated external libraries.
- Integrated interactive project filtering, mailto fallback handlers, and résumé PDF downloads.
- Implemented a complete Git version control workflow with semantic commits and GitHub Pages static hosting.

ENGINEERING PRACTICES & INTERPERSONAL SKILLS

- **Version Control Discipline:** Practicing structured Git branches, conventional commit messages, and automated static publishing.
- **Problem Decomposition:** Breaking down software requirements through use case modeling, activity workflows, and system architecture.
- **Continuous Learning:** Proactively exploring new frameworks, web standards, and developer productivity tools.
